

STARLINK V5
WITH ROUTER MINI

Accessories Guide

STARLINK

Home Mount

Overview

The Starlink Home Mount is the ideal choice when doing a fixed install of your Starlink V5 on your home. Its double-pivot design allows for excellent flexibility, enabling mounting on vertical, sloped, or flat surfaces. Typical mounting locations include the fascia board near the top of a roofline or directly on a sloped roof.

Crafted from durable, weather-resistant materials, the mount ensures a sturdy and enduring foundation for your Starlink, capable of withstanding various environmental conditions.

Easy to install and adjust, the Home Mount comes with all necessary hardware and instructions, simplifying the setup process for a hassle-free experience.

Note: the Starlink Home Mount is intended to interface with the Pipe Adapter Mount that is included in the Starlink V5 Kit.

210 mm x 136 mm x 74 mm
(8.3 in x 5.4 in x 2.9 in)

Package Weight

0.4 kg
(0.88 lbs)

Router Mini

Overview

The Starlink Router Mini is an affordable, compact, Wi-Fi 6, dual-band radio router designed for Starlink. With excellent range and performance, its small size makes it ideal for using as a mesh node to help fill in dead spots in your home, increasing the Wi-Fi speed and range, delivering a seamless Wi-Fi experience.

Mesh Compatibility: Compatible with Starlink Gen 2 Router, Starlink Router 3, Starlink Router Mini and Starlink Mini Kit.

Not compatible to mesh with Starlink Gen 1 Routers or 3rd party mesh systems. For best performance, use a wired connection for your router. If connecting to your Mini, use 15 m Mini Starlink Ethernet Cable. If connecting to another Starlink router, use an RJ45 cable rated to Cat5e or greater.
